OBJECTIVE

Experienced full stack developer specializing in Node.js, with expertise in front-end and back-end technologies. Strong problem-solving skills and a track record of delivering high-quality sofiware solutions.

EXPERIENCE

- Developed scalable and efficient full stack Node.js applications using Express.js and MongoDB.
- Implemented RESTful APIs and integrated third-party services like Payment Gateways and Social Media platforms.
- Designed and optimized databases using Mongoose to enhance performance and facilitate data management.
- Collaborated with cross-functional teams to deliver high-quality sofiware solutions within tight deadlines.

Project :

1-front end project:

- URL Shortening Landing Page
- Single Price Grid Component
- Intro-Component with Signup Form
- Pricing Component with Toggle
- Build a Calculator
- Music player using JavaScript
- Temperature Converter
- Bookmark Landing Page
- Base Apparel Coming Soon Page

2-full stack project:

- **Online_shop**
- **Chat GPT**
